International Journal of Clinical Monitoring and Computing **12**: 259–261, 1995.

Contents volume 12, 1995

Volume 12, No. 1

Noninvasive continuous blood pressure measurement during anaesthesia: A clinical evaluation of a method commonly used in measuring devices
J.R. de Jong, H.H. Ros & J.J. de Lange 1–10

Introduction of knowledge bases in patient's data management system: Role of the user interface
M.C. Chambrin, P. Ravaux, A. Jaborska, C. Beugnet, P. Lestavel, C. Chopin & M. Boniface 11–16

Automated anaesthesia record systems, observations on future trends of development
W. Heinrichs 17–20

Clinical evaluation of the 'head-up' display of anaesthesia data. Preliminary communications
F.E. Block Jr., D.O. Yablok & J.S. McDonald 21–24

The calculation of linear dimension and image area using a digitising tablet and personal computer
R.J. Taylor 25–31

Implication of anaesthesiologists' varying location during surgery
J.W.R. McIntyre 33–36

Data processing in prehospital emergency medicine
P. Felleiter, M. Helm, L. Lampl & K.H. Bock 37–41

A Short tutorial
R. Spitz 43

Selection of abstracts of the Fifth Annual Meeting of the European Society for Computing and Technology in Anaesthesia and Intensive Care
B. Pollwein & I. Kalli 45–59

Volume 12, No. 2

Integrating computerized anesthesia charting into a hospital information system
X. Wang, R.M. Gardner & P.R. Seager 61–70

Computerization of the preoperative anesthesia interview
S.A. Vitkun, J.S. Gage, D.H. Anderson II, S.A. Williams, J.G. Halpern-Lewis & P.J. Poppers 71–76

In vivo comparison between two tip pressure transducer systems
A.E. Aubert, M. Vrolix, H. De Geest & F. Van de Werf 77–83

Clinicians' opinions on alarm limits and urgency of therapeutic responses
E.M.J. Koski, A. Mäkivirta, T. Sukuvaara & A. Kari 85–88

A bolus plus continuous infusion protocol for controlling neuromuscular blockade during anesthesia
J.M.J. Botman, H. Arps & D.R. Westenskow 89–95

A comparison of static and dynamic calibration techniques for the vestibulo-ocular reflex signal
T. Hirvonen, H. Aalto, M. Juhola & I. Pyykkö 97–102

A short tutorial
R. Spitz 103

Mathematical modelling of ventilation mechanics
U. Morgenstern & S. Kaiser 105–112

Abstracts of the Sixteenth Annual Conference on Computers in Anesthesia, Nashville Tennessee, U.S.A., October 25–28, 1995 113–120

Volume 12, No. 3

Clinical non-invasive measurement of effective pulmonary capillary blood flow
S.M. Winter 121–140

Coding medical concepts: A controlled experiment with a computerised coding tool
J.H. Hohnloser, F. Pürner & P. Kadlec 141–145

Computer assisted data analysis in intensive care: the ICDEV project – development of a scientific data base system for intensive care (Intensive Care Data Evaluation Project)
Ph.G.H. Metnitz, P. Laback, C. Popow, O. Laback, K. Lenz & M. Hiesmayr 147–159

Adaptive segmentation of burst-suppression pattern in isoflurane and enflurane anesthesia
T. Lipping, V. Jäntti, A. Yli-Hankala & K. Hartikainen 161–167

Evaluation of right ventricular function by assessment of cardiac efficiency: Influence of induction of anaesthesia in coronary artery bypass grafting patients
P. Tassani, U. Jänicke, H. Kunig, E. Ott & B. Zwissler 169–173

Computers in Anesthesia XVI, October 25–28, 1995, Nashville, Tennessee 175–187

Announcement: The 16th International Symposium on Computing in Anesthesia and Intensive Care 189

Volume 12, No. 4

Double burst monitoring during surgical degrees of neuromuscular blockade: A comparison with train-of-four
H. Kirkegaard-Nielsen, H.S. Helbo-Hansen, P. Lindholm, I.K. Severinsen & K. Bülow 191–196

A modified Trigg's Tracking Variable as an 'advisory' alarm during anaesthesia
R.R. Kennedy 197–204

The effect of skin incision followed by alfentanil on catecholamine levels and on the T-wave amplitude of ECG during isoflurane anaesthesia
P.A. Annila, L. Lindgren, P. Loula, M. Scheinin & A.M. Yli-Hankala 205–211

Mathematical analysis of epidural space location
J. Rodiera, R. Calabuig, L. Aliaga, W. Espinosa, F. Hobeich, F. Oferil & A. Gual 213–217

The accuracy of the flowrate in flush-devices of disposable pressure transducers
C. Michel, F. Roth, P. Feigenwinter & A.M. Zbinden 219–224

Use of computerized visual performance test in assessing day-time vigilance in patients with sleep apneas and restless sleep
T. Jokinen, T. Salmi, A. Ylikoski & M. Partinen 225–230

Simulation of mechanical respiration using a multicompartment model for ventilation mechanics and gas exchange
T. Winkler, A. Krause & S. Kaiser 231–239

Continuous Laser-Doppler free-flap monitoring via the telephone line. Preliminary experiences
D. Hellekes & R. Hettich 241–244

Erratum 245–248

Announcements 249–252

Instructions to authors 253–256
